Complaint about the foul stench from Tunnel Tech.  
In the last 2 weeks there have been 5 times when I've had to close all windows and doors of my property because of the smell. The last one was yesterday evening (Friday 8th September) at around 6pm.

Outside his house at 3.35pm

See attached email regarding the odour from above.

Wish to report the smell from above was obnoxious on Friday 10th September  
2 complaints regarding the stench from tunnel tech. It has been smelling all day with little respite.

Yet again TTN excel themselves. The wind has dropped so the awful smell is lingering and permeating the house.

Don't suppose anybody from BDC will come and monitor on a Friday evening??

I wonder if somebody from BDC would like to come and relauder all my bedding?

Sat 18 Sept - Yet another ruined day today with foul TT stinks wafting around, it is impossible to sit outdoors or even attempt gardening etc.

The smell from TT has been particularly bad, intermittently this week. It has also been intrusive during the night. I don't think there has been a completely odour free day all week.

9.30am odour very strong outside tunnel tech. 12 noon odour still very strong.2pm odour still offensive.Can somebody please explain what procedure tunnel tech is carrying out to cause this highly offensive odour?

Yet another sunny afternoon ruined by a very unpleasant smell wafting in on the wind. Yes TTn have done it again.

Driving past at 11.40 the smell was strong, but this time that dry acrid smell that gets right to the back of your throat. The smell continued down into Misson. Noticed again 15:00hrs.

Absolutely gut wrenching odour permeating the house because illy me expected to be able to have the windows open.

Blasted by Tunnel Tech when we opened the front door at 08.15 today. Can still smell it in the hallway 45 minutes later where it has become trapped but it's clear outside for the moment.

This morning at 9.00 - 9.05 (it lasted just about that length of time) there was a terrible nauseating smell in my back garden and I instantly recognised it as the smell which emanates from TunnelTecs premises

First smelled at 8am today on opening the door and is still ongoing at time of writing this e-mail.

This morning (Tuesday 21st Sept) the stench from Tunnel Tech was awful. This was between 8 and 8.30 on West Street Misson.

....the past weekend was spoiled by prolonged exposure to foul odours from the TTN plant at Newington.

We have also suffered strong, disgusting odours this evening from around 7.45 pm, and this continues as I write.

Complaint about the smell from above. 10pm, Station Rd, Misson.

Another morning of vile smell in this lovely village coming from Tunnel Tech around 9.30 pm
